SUPPLEMENTARY QUESTIONS

PATIENT DECLARATION for all patients who are not ordinarily resident in the UK

Anybody in England can register with a GP practice and receive free medical care from that practice.

However, if you are not 'ordinarily resident' in the UK you may have to pay for NHS treatment outside of the GP practice. Being ordinarily resident broadly means living lawfully in the UK on a properly settled basis for the time being. In most cases, nationals of countries outside the European Economic Area must also have the status of 'indefinite leave to remain' in the UK.

Some services, such as diagnostic tests of suspected infectious diseases and any treatment of those diseases are free of charge to all people, while some groups who are not ordinarily resident here are exempt from all treatment charges.

More information on ordinary residence, exemptions and paying for NHS services can be found in the Visitor and Migrant patient leaflet, available from your GP practice.

You may be asked to provide proof of entitlement in order to receive free NHS treatment outside of the GP practice, otherwise you may be charged for your treatment. Even if you have to pay for a service, you will always be provided with any immediately necessary or urgent treatment, regardless of advance payment.

The information you give on this form will be used to assist in identifying your chargeable status, and may be shared, including with NHS secondary care organisations (e.g. hospitals) and NHS Digital, for the purposes of validation, invoicing and cost recovery. You may be contacted on behalf of the NHS to confirm any details you have provided.

Please tick one of the following boxes:

a) ☐ I understand that I may need to pay for NHS treatment outside of the GP practice

b) ☐ I understand I have a valid exemption from paying for NHS treatment outside of the GP practice. This includes for example, an EHIC, or payment of the Immigration Health Charge ("the Surcharge"), when accompanied by a valid visa. I can provide documents to support this when requested

c) ☐ I do not know my chargeable status

I declare that the information I give on this form is correct and complete. I understand that if it is not correct, appropriate action may be taken against me.

A parent/guardian should complete the form on behalf of a child under 16.

If you are visiting from another EEA country and do not hold a current EHIC (or Provisional Replacement Certificate (PRC))/S1, you may be billed for the cost of any treatment received outside of the GP practice, including at a hospital.

Please tick ☐ if you have an S1 (e.g. you are retiring to the UK or you have been posted here by your employer for work or you live in the UK but work in another EEA member state). **Please give your S1 form to the practice staff**.

How will your EHIC/PRC/S1 data be used? By using your EHIC or PRC for NHS treatment costs your EHIC or PRC data and GP appointment data will be shared with NHS secondary care (hospitals) and NHS Digital solely for the purposes of cost recovery. Your clinical data will not be shared in the cost recovery process.

Your EHIC, PRC or S1 information will be shared with The Department for Work and Pensions for the purpose of recovering your NHS costs from your home country.

Patient Participation Group

The practice is committed to improving the services we provide to our patients.
To do this, it is vital that we hear from people about their experiences, views and ideas for making services better. By expressing your interest, you will helping us to plan ways of involving patients that suit you. It will also mean we can keep you informed of opportunities to give your views and up to date developments within the practice.
If you are interested in getting involved, please tick the box below and we will arrange for the Practice Patient Participation Group Application Form to be given to you.

Yes I am interested in becoming involved in the PPG (please tick the 'Yes' box)	**Yes**	

Online Services Registration

Reception can provide you with a username and password to enable you to book and cancel appointments, order medication and view a summary of your medical record. Should you wish to make use of this convenient service, please provide some photographic ID to reception.

Yes, I am interested in using the online services (please tick the 'Yes' box)	**Yes**	

Consent To Hold Your Records

The Practice needs to hold your medical records on the premises in order to give you the best medical care possible. We keep your records on the computer as well as holding paper notes. All of our patient's notes are covered by the Data Protection Act 1998. This means that a third party cannot access your records without your consent.

Summary Care Record

Your Summary Care record is an electronic record of important information about your health and is available to healthcare staff providing your NHS care in England, for example A&E. This means that if you ever become ill and need urgent or out of hours treatment outside of the surgery, the clinicians that treat you will have immediate access to important healthcare information about you. **If you do not want this to happen, please ask reception for an Opt-Out form**

Patient Signature:	**Date:**

Thank you for completing this form

For more information about the services we offer, please refer to the leaflets provided by reception or see our website: www.theguildhallsurgery.co.uk

Who can see my health record?

To treat you safely and well, it is important that professionals you see can access your health record.

Only by letting your GP surgery know it is ok will your notes be available to be seen by other professionals such as hospital clinicians, paramedics or district nurses.

How do I make my record available to health professionals?

Simple. Complete this form and hand it into your GP surgery. There are two ways that this sharing can happen and it's important you understand what they are so you can make the right decision for you.

A. Summary Care Record with Additional Information
A Summary Care Record has basic information on that is useful for NHS clinicians. It shows if you have allergies and it lists your medications. 98% of people have this. By including "Additional Information", this will add your illnesses and any health problems, vaccinations, operations and information on how you would like to be treated.

B. Full Electronic Health Record
Your full electronic health record is held by your GP surgery. It can also be made available to health and social care staff, if they are involved in your direct care. **Staff must still ask for your permission before they look at your record**. This also allows your surgery to see what other staff are doing to support and treat you. If there are certain parts of your record that you wish to keep private, your surgery can do this.

Does this mean anyone can just look at my record?

No. Your record can only be seen by staff who **are currently involved in your direct care, have a need to see it, and have asked for your permission**. The only exception to this is in case of an emergency. For instance, if you were taken to hospital unconscious, a doctor could look at your record without your permission. If this happens, a permanent alert is created showing who looked at the record and why.

Are you going to sell the information in my record?

Never. If your record is shared, it's only ever available to staff for the purposes of your care, nothing else.

Can I change my mind?

Yes. Just tell your surgery and they can update your decision at any time.

Your decision to agree to either one, or both

			Please Tick
A	Yes, I am happy for additional information to be added to my Summary Care Record, this means healthcare staff treating me can see a summary of my medical history in addition to my medication and allergies*.		
B	Yes, I am happy for my full health record to be shared by my GP surgery. This will be available to health and social care professionals who are currently treating me, and have my permission to view it.		

**If you already have a basic summary care record and now wish to opt out of this completely, please ask your practice for an SCR consent form.*
